SJSU Senator

O&G and CSR Member

Statement of interest and nomination Faculty at Large representative

My interest in serving as Faculty at Large stems from my interest and deep respect for the critical functions performed by SJSU Senate's Executive Committee. Having served for three years in the Organization and Governance Committee (O&G) and one year in the Subcommittee for Community on Senate Representation (CSR), I see this as an excellent opportunity to provide diverse perspectives from this work into the articulation and forward-looking aspirations of the committee. Similarly, I am seeking perspectives into its work advancing the legislative action of the Senate, and I look forward to gaining deeper insights that I can, in turn, take back to benefit the O&G and CSR committees.

My aspiration to observe first-hand and contribute to how the Executive Committee functions as a hub to receive and distribute policy proposals is of particular relevance in this opportunity. Additionally, I want to support how its workflow and activity are represented in agendas that are balanced and relevant to the community. I can support its mission to be effective while dynamizing external relations and effectively communicating with and engaging as many SJSU community members as possible. As a nuclear body in the Senate, the Executive Committee plays a critical role in our shared aspiration to make the Senate relevant to our multilayered community, a place where SJSU's inherent diversity and strength are present and democratically represented.
