Course Information

ENGL 2 Course Description

ENGL 2 is an introductory writing course that focuses on the relationship between language and logic when composing arguments. We will focus on Artificial Intelligence with a focus on Science, Technology, Engineering and Mathematics (STEM) versus Science, Technology, Engineering, Arts and Mathematics (STEAM) as well as Natural Language Processing (NLP) and Natural Language Understanding (NLU). Building on the skills acquired in ENGL 1A, you will learn to reason effectively and think rhetorically to invent, demonstrate, and express arguments clearly, logically, and persuasively.

ENGL 2 Course Content

Diversity: SJSU studies include an emphasis on diversity. You will engage in integrated reading, writing, and oral assignments to construct your own arguments on complex issues (such as diversity and ethnicity, class and social equity) that generate meaningful public debate. Readings for the course will include writers from different ethnicities, gender, and class.

Writing: You will write a series of essays informed by research and articulating fully developed arguments about complex issues. Assignments emphasize those skills and activities in writing and thinking that produce the persuasive argument and the critical essay, each of which demands analysis, interpretation, and evaluation. Writing assignments give you repeated practice in prewriting, organizing, writing, revising, and editing. ***This class requires a minimum of 6000 words, at least 4000 of which must be in revised final draft form. You will be reading chapters and complete quizzes weekly.***

Logic: You will learn methods of argument analysis, both rhetorical and logical, that will allow you to identify logical structures and distinguish common logical fallacies in critical thinking.

Reading: In addition to being writing intensive, ENGL 2 is also a reading course. You will read a variety of critical and argumentative texts to help develop your skills for understanding the logical structure of argumentative writing and critical thinking.

Oral: You will be presenting your arguments orally to class both as an individual and as part of a group.

* Classroom Protocols

Classroom Protocol

Please do your part to help us all foster a welcoming and supportive zoom classroom environment. We will do our best work when everyone feels comfortable enough to participate. Blatant displays of disrespect undermine the sense of community we need to learn and to share what we learn from each other. When we disagree, let's do so respectfully and sincerely. We will be studying the art of effective communication throughout this semester course and learning how to debate with others in a spirit of honest and respectful inquiry. In the unlikely event that a student might exceed the bounds of civility, s/he will be asked to leave for the remainder of the zoom class session. Behavior that fits this description include offense comments directed at your peers or me, sleeping during class, talking with your peers about things unrelated to the class, or focusing your attention on electronic equipment rather than the class activity or discussion.

The class policies have been developed over the last three decades of teaching composition. They are intended to ensure the smooth operation of the class and to encourage a professional working environment congenial to all.

- **Deadlines** must be honored; otherwise, *the grade will be reduced accordingly*.
- **Email** is useful to schedule appointments or to advise me of an absence. *I cannot accept papers via email*. Nor is email a suitable vehicle for student-teacher conferencing.
- **Your work** is public in this class, part of our collective inquiry into writing, reading, and democracy. We will share work in Canvas regularly. I reserve the right to publish your work to the class as part of our workshop activities.
- **Recording class sessions** is possible, but you must advise me in writing so that I may seek permission from the class for such a recording. I will need to know what will be recorded, when, how and why, as well as how the recordings will be stored and used. No recordings of the class may be uploaded or shared electronically without written consent from me.
- **Make ups** for in class work cannot be made; if you are not in class (for whatever reason), *you miss that work opportunity and points*. Out of class assignments may be made up only with documentation of a compelling reason for missing the planned work in the first place.
- **Workshops** are an essential part of the writer's working experience. Your participation in workshops is critical to your success and mandatory.
- **Arriving Late or Leaving Early**: Please don't do it. It is disruptive to your classmates. However, I also understand that life happens, so if you have an emergency and arrive late, please make sure you explain to me why you were late. If you must leave early for some reason, make sure to tell me in advance.

Program Information

Welcome to this General Education course.

SJSU's General Education Program establishes a strong foundation of versatile skills, fosters curiosity about the world, promotes ethical judgment, and prepares students to engage and contribute responsibly and cooperatively in a multicultural, information-rich society. General education classes integrate areas of study and encourage progressively more complex and creative analysis, expression, and problem solving.

The General Education Program has three goals:

Goal 1: To develop students' core competencies for academic, personal, creative, and professional pursuits.

Goal 2: To enact the university's commitment to diversity, inclusion, and justice by ensuring that students have the knowledge and skills to serve and contribute to the well-being of local and global communities and the environment.

Goal 3: To offer students integrated, multidisciplinary, and innovative study in which they pose challenging questions, address complex issues, and develop cooperative and creative responses.

More information about the General Education Program Learning Outcomes (PLOs) can be found on the [GE website \(https://sjsu.edu/general-education/ge-requirements/overview/learning-outcomes.php\)](https://sjsu.edu/general-education/ge-requirements/overview/learning-outcomes.php).

Course Learning Outcomes (CLOs)

GE Area A3: Critical Thinking and Writing

Area A3 courses develop students' understanding of the relationship of language to logic. By engaging students in complex issues requiring critical thinking and effective argumentation, A3 courses develop students' abilities to research and analyze important topics and to construct their own arguments on issues that generate meaningful public debate and deliberation. Courses include explicit instruction and practice in inductive and deductive reasoning as well as identification of formal and informal fallacies of language and thought. Completion of Area A2 (Written Communication I) with a minimum grade of C- is a prerequisite for enrollment in Area A3. Completion of Area A3 with a grade of C- or better is a CSU graduation requirement.

GE Area A3 Learning Outcomes

Upon successful completion of an Area A3 course, students should be able to:

1. locate, interpret, evaluate, and synthesize evidence in a comprehensive way, including through library research; and integrate research findings into oral and written arguments through appropriate citation and quotation;
2. use a range of rhetorical and logical strategies to articulate and explain their positions on complex issues in dialogue with other points of view;
3. identify and critically evaluate the assumptions in and the contexts of arguments; and

4. use inductive and deductive logic to construct valid, evidence-supported arguments and draw valid conclusions.

Writing Practice: Students will write a minimum of 6000 words, at least 4000 of which must be in revised final draft form.

✓ Grading Information

Grading Policy

Specify your grading policy here. Include the following:

- All grades will be posted on Canvas including assignments we do in class. Each assignment's percentage points (from above) will be a separate section on Canvas. Any writing related to that assignment will be in a separate module. I grade most major assignments out of 100 and the grades are on a +/- system
- There is no extra credit for this course except for the ones using the camera
- Percentages for each assignment are in the section under "Assignment word count and weight"

- Late work will be reduced accordingly
- Must receive a C- or higher to pass the course

The department's standard grading scheme consists of the following: "Requirements for assignments will vary, but in all cases essay grades will reflect the paper's effectiveness, which is broken down into three major areas: content (this includes maturity and sophistication of thought), organization, and expression.

The following are the criteria by which essays are typically evaluated in first-year writing courses:

An "A" range essay is organized and well-developed, demonstrating a clear understanding and fulfillment of the assignment, written in a unique and compelling voice. It will show the student's ability to use language effectively with a solid command of grammar, mechanics, and usage.

A "B" range essay demonstrates competence in the same categories as an "A" essay, but it may show slight weakness in one of these areas. It will respond to the topic suitably and may contain some grammatical, mechanical or usage errors.

A "C" range essay will complete the requirements of the assignment, but it will show weaknesses in fundamentals, such as development. It may show weakness in mastery of grammar, mechanics, usage, or voice.

A "D" range essay will neglect to meet all the requirements of the assignment or may be superficial in its treatment of the topic. It may lack development or fail to stay on topic. It may contain grammatical, mechanical, and/or usage errors that interfere with reader comprehension.

An "F" essay does not fulfill the requirements of the assignment

Students must receive a C- or higher to pass the course

Letter grade	Percentage	GPA

A.I. Policy

In this class we will only use AI for certain specific assignments and as directed by the instructor. If you use anything generated by an AI in the creation of your paper (including building on the in-class tasks in which we will engage AI), you will need to cite that in your paper. All formal assignments submitted in this class via Canvas will be run through the Turnitin plagiarism and AI detection tool. If you misrepresent anything as your own work without clearly placing borrowed language in quotation marks or referencing

from whom or what an idea or fact has come, that is considered plagiarism, and you will A) Fail the assignment and B) the instructor will be forced to make a report to the Office of Student Conduct. Please note that Turnitin sometimes produces false positives when it believes it has detected AI. One way of protecting yourself from a misrepresentation of your work as AI is to document the steps you took in finding the research and drafting arguments – steps which we will work on in the course of the class.
