

PHIL 110 Section 01, “Science, Tech & Human Values”

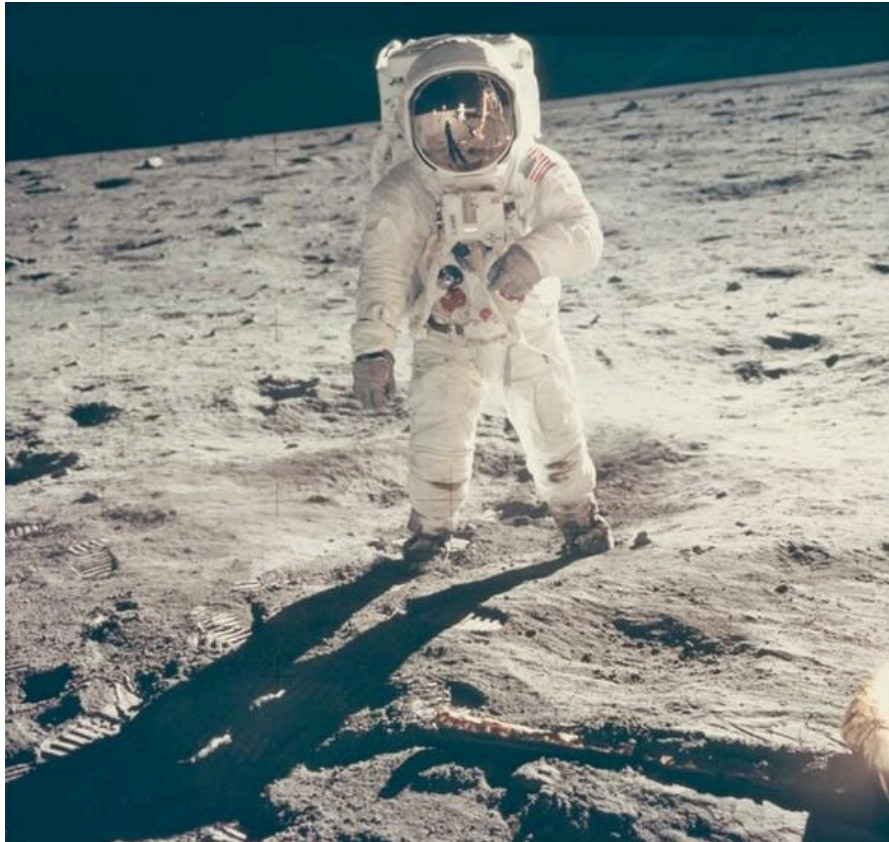

Time: Tuesdays and Thursdays, 3:00-4:15

Location: BBC 222, In-person

Spring 2025

Instructor: Kyle Hertsch

Email: kyle.hertsch@sjsu.edu

Philosophy 110 focuses on the aims, methods, and worldviews of science and technology, including issues such as technological determinism, design aesthetics, and the moral implications of computers and other technologies.

In this course, we will explore questions like:

- Is it good for humans to have relationships with technology?
- What role does technology play in the pursuit of human knowledge?
- What is the responsible use of emerging technology?
- Is A.I. a threat to humanity?

Prerequisite: Upper-division standing.
